

EU4Health Programme

European Funding Opportunities

EU4Health Programme

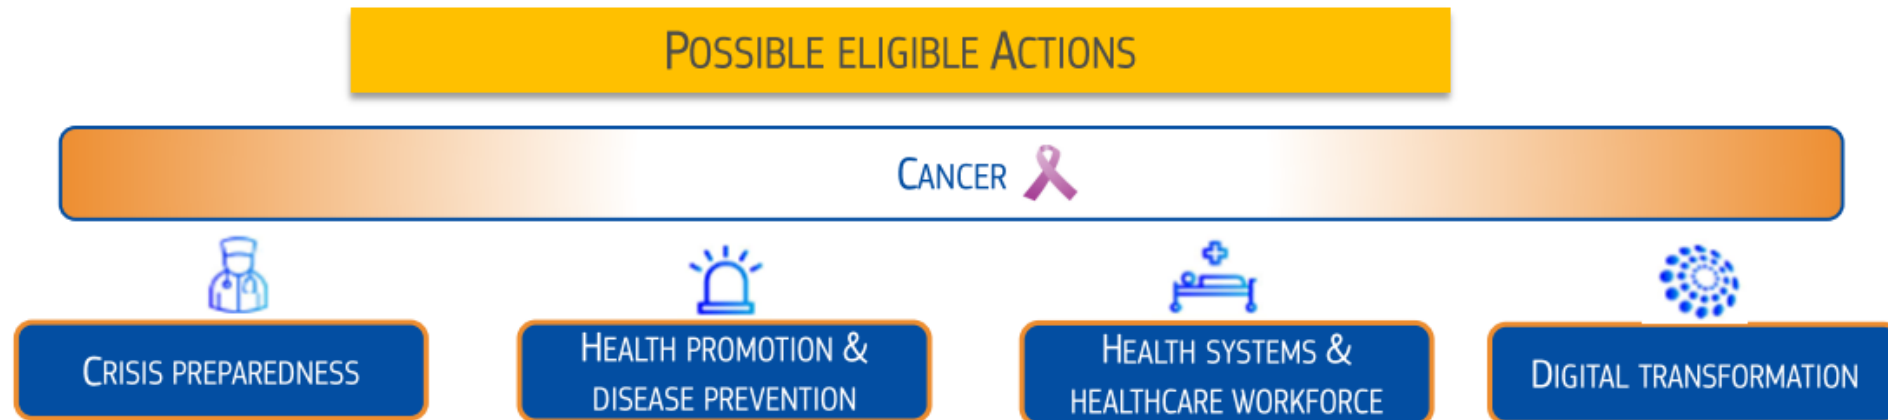

- EU4Health is EU's response to COVID-19, which has had a major impact on medical and healthcare staff, patients and health systems in Europe. By investing **€5.3 billion euros**, therefore becoming the **largest health programme** ever in monetary terms, **EU4Health will provide funding to EU countries, health organizations, civil society, academia, research institutions and NGOs.**
- EU4Health is aligned and works in synergy/compliment with other Union policies, programmes and funds (The European Beating Cancer Plan, Horizont Europe, Digital Europe, Union Civil Protection Mechanism..)

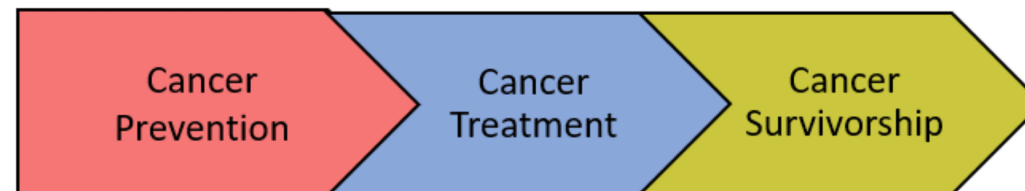

EU4Health is a clear message that public health is a priority for Europe and it is the instrument to pave the way to a European Health Union

EU4Health work programmes – 4 strands of action + cancer

EU4Health supports a broad range of actions under four overarching “strands” with a cross-cutting focus on cancer

Different types of funding mechanisms

Joint Actions

Requires participation from ministries, government departments or their nominees

Public Procurement

Contracts with economic operators to purchase services on the account of the Commission. The calls for tenders are published on Ted.

Action Grants

- Applicants must submit a project proposal (most of the calls require a consortium with at least 3 different MS)
- Academia, education establishments, research institutes, national and regional health authorities, hospitals, civil society organizations (associations, foundations, NGOs and similar entities) are potential applicants

Industry

Research institutes

Academia

National, regional and local authorities

Representatives of civil society

NGOs

CONSÓRCIO EUROPEU LIDERADO PELO IHMT-NOVA É SELECIONADO PARA FINANCIAMENTO DA UE

Projeto para reduzir a hesitação na vacinação é liderado pelo investigador Tiago Correia – um dos oradores da 6ª Conferência da NOVA HEALTH sobre os desafios da vacinação ao longo da vida

O projeto "VAX-ACTION: tackling effectively vaccine hesitancy in Europe", do consórcio europeu liderado pelo Global Health and Tropical Medicine (GHTM), órgão de investigação do Instituto de Higiene e Medicina Tropical (IHMT), da Universidade NOVA de Lisboa, foi selecionado para cofinanciamento pela União Europeia através do programa EU4 Health.

A hesitação vacinal, refletindo-se na taxa de adesão à vacinação inferior à esperada, em diversos países europeus, é um problema que constitui uma preocupação académica e política a nível global.

Neste sentido, o financiamento do EU4H representa o passo natural para tentar pôr em prática as evidências académicas

sobre as formas de aumentar a confiança nas vacinas e nos órgãos de saúde responsáveis pela administração das mesmas.
